LICENSE # NO 08538200 :	ORDER TERMINATING
TO PRACTICE NURSING IN THE :	RESTRICTIONS ON
STATE OF NEW JERSEY :	LICENSE

---

This matter was opened to the New Jersey State Board of Nursing (" Board") upon receipt of respondent's request for removal of all restrictions imposed on her New Jersey nursing license by an Order of Reinstatement of License filed on July 19, 2007. Respondent's nursing license had been placed on probation by that order, and the order required respondent's continued participation in and compliance with the Recovery and Monitoring Program of New Jersey (RAMP). The order also imposed certain

limitations on respondent's employment and other obligations. Previously, respondent's nursing license had been suspended for a minimum of two years pursuant to a Final Consent Order filed on January 13, 1989 based upon a finding that at some point during 1987 and 1988, while employed at Chilton Memorial Hospital, respondent had diverted Percocet and Demerol for her own use.

Inasmuch as RAMP has indicated that respondent successfully completed the program as of February 7, 2011, and has further indicated support for respondent's request for the removal of all restrictions on her nursing license, and the Board finding that entry of the within order is appropriate and is sufficiently protective of the public health, safety and welfare, and for other good cause shown;

IT IS on this 22<sup>nd</sup> day of June , 2012

HEREBY ORDERED AND AGREED that:

1. Respondent's petition for termination of the probationary conditions imposed pursuant by the July 19, 2007 Order of Reinstatement of License is hereby granted, and respondent's nursing license is no longer subject to restriction or encumbrance.
